Product Specification

NORWAX FCB

Description	Combination of special waxes
Appearance	Light brown
Activity	100%
Melting Point	58°C
Storage Stability	12 months
Characteristics	Dark strong pull-up with a very low oil content
Properties	<p>Norwax FCB has been developed to minimise oil migration during pull-up leathers production.</p> <p>Footwear produced from some oily pull-up leather are prone to poor sole adhesion and staining of shoe linings. Norwax FCB minimizes this problem.</p> <p>With its low oil content Norwax FCB is the chosen product for good sole adhesion while still achieving a strong pull-up and excellent darkening effect.</p> <p>The amount to apply is between 12 to 18 grms per square foot. Apply in two coats, leave overnight and plate if desired for maximum effect.</p>
Application	Heated roller coater machine, heat wax before application.
Storage Behaviour	Product is not sensitive to cold
Product code	5-8496
