Product Specification

NORWAX FW-52

Description	Combination of hard waxes
Appearance	Off white solid
Activity	100%
Melting Point	52°C
Storage Stability	12 months
Characteristics	Dark strong pull-up
Properties	The product is a combination of hard waxes that produces a dark pull-up with a very dry feel. Norwax FW-52 has a low oil content. Norwax FW-52 is the first choice wax for the production of "Crazy Horse" type leather. The addition of Finishing oil FT will help control the "rubbing back" of the pull-up effect.
Application	By heated rollercoater machine. The amount to apply is normally two coats between 8 to 10 grms square foot. After application pile leather overnight to equalise. Next day for a "Crazy Horse" effect matt plate and lightly mill.
Storage Behaviour	Product is not sensitive to cold
Product code	3-6581
