Product Specification

WAXCLEAN

Description	Machinery Cleaning aid
Appearance	Reddish pink liquid
Activity	30%
Storage Stability	12 months
Characteristics	Solvent cleaning aid for hot wax and oiling off machines
Properties	Waxclean dissolves and removes excess wax and oil residue from heated rollercoater cylinders and machinery.
Application	Pump Waxclean around cylinders until all residue is dissolved. Waxclean is a very efficient cleaner which in a very short time all excess wax and oil will be dissolved. Drain of excess cleaner into a container for reuse. If the cylinders are to be used for water based finishing simply wash rollers with warm soapy water before reuse.
Storage Behaviour	Product is not sensitive to cold
Product code	5-2677
