## Product Specification

### **FINISHING OIL PX**

<b>Description</b>	Conditioning oils
<b>Appearance</b>	light yellow liquid
<b>Activity</b>	100%
<b>Storage Stability</b>	12 months
<b>Characteristics</b>	Low viscosity water repellent oil
<b>Properties</b>	<p>Finishing oil PX is a pull-up oil with good water repellency. Its main use is to modify and aid penetration to the range of Norwax and finishing oils while still maintaining water repellency. The hydrophobing effect depends on the treatment of the leather prior to application.</p> <p>Finishing oil PX can also be used as a replacement for mineral solvents that are sometimes used as an aid to penetration.</p>
<b>Application</b>	As a solo product apply between 8-12 grms per square foot. As a penetration aid use 10-20%.
<b>Storage Behaviour</b>	Product is not sensitive to cold
<b>Product code</b>	5-8496
